Futurekids/Skillspro

Unveiling a Legacy of Innovation, Education, and Inspiration

As we step into 2025, it's important to acknowledge that 2024 was a challenging year for many. Each of us faced our own unique circumstances, some tougher than others, but we now have an opportunity to turn the page and begin anew.

This year, let's focus on adding value to the lives of others by being supportive, caring, understanding, and truly listening. More love and compassion can create a ripple effect, strengthening bonds and fostering unity in our communities.

At Skillspro, we remain committed to empowering educators and schools through innovative teaching solutions. By integrating technology into classrooms and providing a robust curriculum, we aim to make learning more engaging and impactful. Together, we can inspire growth, creativity, and resilience in the next generation.

Thank you for being part of the Skillspro journey. Here's to a year filled with hope, progress, and meaningful connections.

Warm regards, The Skillspro Team

Future-FUN CAPS for Grade R

Are you a **Grade R** educator looking to make teaching and learning more engaging and effective? Look no further! Future-FUN CAPS has got you covered with our innovative educational materials designed to align perfectly with the CAPS document.

What's Inside Future-FUN CAPS?

- ♥ "Routine" e-Book per Term
- ♥ 5 Exciting e-Books per Week

How It Works: Each week, you'll receive 5 dynamic e-Books – one for each day. These e-Books are meticulously crafted to follow the daily program outlined in the CAPS document. Plus, they come complete with a weekly plan that gives you a comprehensive overview of the entire week's activities and assessments. It's like having your curriculum neatly wrapped up in one convenient package!

Why Choose Future-FUN CAPS?

- * **Engaging Content:** Our e-Books are designed to captivate young minds, making learning fun and exciting.
- * **Curriculum Aligned:** It follows the CAPS document to ensure your students receive the best education possible.
- * **Time-Saving:** Say goodbye to hours of lesson planning. With Future-FUN CAPS, your curriculum is ready to go!
- * **Comprehensive Assessment:** Easily track your students' progress with our built-in assessment tools.
- * **Join the Future-FUN CAPS family today!** Don't miss out on this opportunity to transform your Grade R classroom. Join the Future-FUN CAPS family and experience a new era of teaching and learning.

Unplugged CAPS

Coding & Robotics projects

For Grades R-3 Coding and Robotics, an "unplugged project" refers to activities that teach foundational coding and computational thinking concepts without using computers or screens. These projects focus on hands-on experiences and real-world connections to make learning fun and engaging for young learners.

To assist teachers with implementing the new curriculum, we have designed a special training session for teachers in grades R-3. This includes a training manual and 4 unplugged projects/kits which are sent to each teacher before the online training session takes place.

Skillspro

Skillspro is an accredited service provider that has partnered with ACE, now Accelerated Education Enterprises, since 1998 to provide computer skills training for their learners from pre-school to grade 12. It is a requirement for all learners to have a good grounding in the Microsoft Office programs, Windows, computer basics and the Internet before they graduate. The reason being that these skills are compulsory for students going into any university as well as the marketplace.

Since 2015 Skillspro has also been accredited by the International Certificate of Christian Education organisation to provide their students with the compulsory ICT component of their Grade 12 exit qualification. ICCE is an umbrella body with schools and home schools across Africa, the UK, Malaysia, and all over the world.

Students can complete the modules using printed or online manuals, and there are online quizzes in place for the formative/self-test and the summative/final test.

The courses are also open to adults who want to upskill themselves!

I really love Skillspro and the students are so confident.

*Blessings,
Justine*

King of Kings School in the UK doing ICCE

Our students enjoyed working on the General Certificate IT modules. The printed notes, the learner guides, are easy to follow. Being printed, it is extremely useful for future reference.

The response from the Skillspro team, if needed, was prompt and informative. We normally were able to get help and resolve problems within a day or two.

Overall, we got what we needed. The students are happy, and the school is happy!

Pastor Han
Principal, Heritage Resource Station, Malaysia

In my opinion, the Learner Guides were written in a simple and detailed way that made it possible for us homeschool students to study and understand them fairly easily and without the aid of a teacher. I also liked the option of taking the formative and summative exams online; it saves a great deal of time. And finally, my assessor, was very responsive to my questions and quite patient with me throughout the course, which I am thankful for.

It was quite a fun and informative journey that I am grateful for.

Monika – HS in West Africa – did Combo 1 and 2.

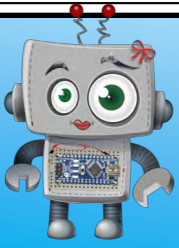

Skillspro facilitates computer skills learning for a lifetime, staying ahead of technological development
