**SUBJECT : PERMISSION GRANTED TO SKILLSPRO GROUP TO APPROACH
SCHOOLS WITH THEIR FUTURE FUN CAPS PROGRAMME**

Dear Ms Janse van Rensburg

It is a pleasure to inform you that Tshwane North District granted permission for the SkillsPro Group to approach schools with their Future Fun CAPS Programme.

The goal of Futurekids is to assist the schools/teachers/parents and learners in whatever way possible to improve the implementation and understanding of the curriculum. After consultation with our Subject advisors, the conclusion was reached that the programme is CAPS aligned and will be beneficial to learners.

As a District, we would really wish to engage as many schools as possible in this programme but we did not allocate any funding for this. We therefore request SkillsPro to assist with possible donations from third parties to assist with reaching this goal in especially our underprivileged communities.

Schools can choose from 4 products:

Product 1:

All School Subjects in digital format in both English and Afrikaans languages Gr R-7. This includes Student Study Notes per subject per term, Worksheets with Memoranda per subject per theme, All Assessments and Memoranda per subject per term.

Product 2:

Future-FUN CAPS ICT Curriculum integrated into School Subjects Gr R-7

Product 3:

Skillspro 40 Modular ICT Curriculum for Gr 8-12 and guides for Teachers or Adults.

Product 4:

Computer Coding and Robotics Curriculum for Gr R-7. This includes Scratch Junior & Scratch as well as Python.

The permission is subject to the following conditions:

- *The programme is not compulsory-schools may choose to grant permission or decline the offer.*
- *A written report must be submitted after every term to indicate schools that are involved with the programme*
- *The permission is valid for the year 2021 and 2022 and a new application must be brought to the District for 2023.*
